The Foundations of Tau Sigma Phi:

Sisterhood

...is the reason we've all been brought together, it is the underlying reason for how we've become so successful. Tau Sigma Phi is proud to foster a loving & positive environment for all members. We have the strongest sisterhood on every campus we belong to and know that our lives can only be enhanced by building each other up.

Scholarship

... Scholastic achievement is of great importance to Tau Sigma Phi, each member is required to maintain a specific GPA in order to be active, mentors or hold executive positions. We require our members to complete monthly study hours, participate in workshops to better their work ethic, and connect Actives to Alumni who completed the same degrees/have similar career goals. Our members set scholastic goals for themselves each semester & we do our best to give them the opportunities to be able to achieve them.

Philanthropy

... specifically anything pertaining to breast cancer research, is the passion of Tau Sigma Phi. This is our specific cause because all 5 of our founding mothers were affected by this horrible disease in one way or another. Our members participate in various campaigns & events that raise not only money, but awareness as well. Each chapter also participates in various other philanthropies depending on what the current actives are passionate about.

Year In Review: Notable Highlights & Accomplishments

Although still maneuvering a COVID-19 world, our chapters were able to successfully implement a hybrid school year model, allowing for both virtual and in-person events throughout the year. This included recruiting and initiating 37 new members into the sisterhood of Tau Sigma Phi!
